

## DT Pictionary REVISION RULES.

**You must work in pairs.**

A dice is thrown to decide the game player roles.

Highest number rolled becomes the 'DT Pictionary Artist' and the lowest number rolled the guesser.

The 'DT Pictionary Artist' will select a DT Pictionary card and will draw on a piece of paper the item that needs guessing.

The 'DT Pictionary Artist' will have 30 seconds to draw their question.

If the drawing is correctly guessed by the player then they can move their counter **3 spacers** around the board game. Successfully guessing reverses the roles and then guesser becomes the artist.

If the drawing is not correctly guessed the 'Artist' moves their counter **2 spacers** and selects another card to draw from, until guessed correctly.

The winner is the person who finishes the board the quickest!

Good Luck. Prize for the winner!
